

Call for Post-Conference (DAGSTAT 2016) Papers
for Archives of Data Science, Ser. A.

http://www.archivesofdatascience.org/journals/series_a/

Please submit full papers (10-14 pages)
of talks presented at DAGSTAT 2016 to the Archives of Data Science, Ser. A.
Your submissions will be published as post-conference articles
in one or several issues of the Archives of Data Science, Ser. A.

Topics:

- Big Data and Data Science
- Bioinformatics
- Cluster Analysis and Classification
- Computational Statistics and Statistical Software
- Data Analysis and Marketing
- Design of Experiments
- Destroying data as a means of data protection - is it ethical?
- Education for Statistics in Practice
- Empirical Economics and Applied Econometrics
- Graphical Models and Causal Inference
- Machine Learning
- Mathematical Statistics in Life Science
- Methods for Risk and Benefit Assessment
- Multilevel and Panel Data Analysis
- Observational Studies
- Official and Survey Statistics
- Personalized and Regularized Regression Analysis
- Psychometrics
- Research Synthesis and Meta Analysis
- Robust and Nonparametric Statistics
- Small Area Analysis and Spatial Statistics
- Statistics in Agriculture and Ecology
- Statistics in Clinical and Preclinical Research
- Statistics in Finance
- Statistics in Natural Sciences and Technology
- Statistics of High Dimensional Data
- Structural Equation Modelling
- Survival and Event History Analysis
- Time Series Analysis
- Visualisation and Exploratory Data Analysis
- Young Statisticians
- Open Topics

Submission Guidelines:

For the complete submission guidelines please download the guidelines
of the Archives of Data Science, Ser. A from

http://www.archivesofdatascience.org/journals/series_a/author-guidelines

In short: please use our provided LaTeX template, cite properly
using BibTeX, ensure that you have the copyright for all figures
that you are referencing in your paper. Make sure to submit all files
that belong to the article including figures, tex-file, unpublished
but referenced sources. In addition, please indicate
the topic of your submission and that it should go into one of the
DAGSTAT 2016 related special issues (last page). For example:

`\newpage`

`\par`

Special Issue: DAGSTAT 2016.\
Topic: Big Data and Data Science.

Prepare full papers with a length in the range of 10-14 pages

Call ArchivesOfDataScience.txt
(when using our provided style!) with the LaTeX preprocessor according to the Springer guidelines for contributed books and use only the LaTeX macro packages allowed in the documentation of Springer's svmult. Submissions in other formats than LaTeX are rejected.

Longer submissions are possible (up to 30 pages) are possible, but have to be arranged with the editors.

Please follow the recommendations made in the LaTeX template regarding the styling of tables, figures and overall typography.

Dates:

Submission of DAGSTAT papers for special issue(s) in Archives of Data Science, Ser. A:

Start: April 15th, 2016.

End: May 31st, 2016.

Submissions at a later date are welcome and are considered as regular submissions.
